PLANT CELLULOSE (made from Cotton) is naturally occurring plant matter, used to create the body and thickness of the lubricant.

ALOE BARBADENSIS* (Aloe Vera) & **HIBISCUS*** are plant derived extracts, and both help heal, moisturize and sooth the skin.

CYAMOPSIS (Guar Conditioners) is a non toxic and natural additive that enables the plant cellulose fiber to move and feel incredibly slippery.

FLAX* & **ALFALFA*** are added as restorative and healing emollients, restoring elasticity to the skin.

GREEN TEA* is added as an anti-inflammatory.

SUNFLOWER SEED* is used as a cleansing and calming tonic.

CITRIC ACID (Citrus Fruits) is used as a natural antiseptic/astringent cleanser and preservative. It is combined with the smallest amount of **Potassium Sorbate**, which is a natural preservative that also works as an antifungal. The combination of these two keeps unwanted bacteria and mold away, and extends the shelf life, making this a safer product for women.
